

Mines and Mining.

The South Quincy Mining company which is incorporated with a capitalization of \$300,000 at \$1 per share, consists of twenty-six claims adjoining the Bonanza Consolidated on the south-east. It is proposed to tap the district lying south of the Daly West and Daly Judge at a depth of about 2000 feet. The tunnel has been run 400 feet and a contract has been let on which men are now working for increasing this distance by 200 feet which it is believed will tap the first contact.

Ernest Bamberger left this week for Park City where he will look over the Keystone situation before returning to this city.

The Dana Gold Mining and Milling company of which Joseph Dederich is president, has let a contract for 200 feet on work in its tunnel, operations on which have already been commenced. The company's properties are located on the middle fork of Johnson creek which will supply all the water power required to run a good sized mill.

The Lone Pine mine on Snake creek is a sure winner according to the latest reports, the tunnel having been run a distance of 120 feet where the ledge was struck. The foot wall of the ledge was encountered and crosscutting has progressed fifteen feet without striking the hanging wall. Assays from this ledge show values of 32.5 in lead and about 80 ounces in silver. As soon as the crosscut is completed a drift will be started on it and shaft work commenced. The ledge has a pitch of sixty degrees and is well mineralized throughout, having every evidence of increasing in values, with increased depth. N. A. Page, who has just returned from the property, is well satisfied with its appearance and says that it looks good enough to him.

The shareholders of the Silver King received \$100,000 this week in dividends, and the Consolidated Mercur \$30,000.

A distribution of \$108,000 was made by the Daly West today.

The Calumet and Hecla posted another dividend of \$5 this week making total dividends for the year \$20 per share aggregating \$2,000,000.

President Bamberger left for the De La Mar mines on Wednesday to inspect his fine properties.

The officials of the Bingham Consolidated are visiting the Daly West of Park City this week.

Frank B. Work, the recently appointed manager of the new Hannapah company's properties in Nevada, left this week for his company's properties.

A. H. Mayne, president of the Minola Mining company at Park City reports work progressing steadily on his company's property and at a depth of 190 feet the character of the ground denotes a near approach to mineral which it is confidently expected will be struck within a short time.

Reports just received from Manila, P. I., confirm the early reports of the existence of gold and copper in paying quantities in northern Luzon, a smelter plant having recently been installed in Illocos Norte in the Cordilleras range about 300 miles northeast from Manila. Placer claims in central Luzon and the island of Minadora are being worked by ex-soldiers with excellent results. From the immense coal fields in eastern Luzon a grade of coal 7 per cent better than the Australian product is being supplied to United States transports and war vessels.

Willard F. Snyder, president of the Western Exploration company arrived in Salt Lake this week from the East.

Articles of incorporation have been filed by the Majestic Copper Mining and Smelting company under the laws of Colorado.

Articles of incorporation were filed this week by the Erickson & Stromberg Mining company whose principal place of business is at Grantsville, Utah. Capital stock \$5000 divided into 500

shares valued at \$10 per share. The officers are Swen Erickson, president; C. J. Stromberg, vice-president; J. A. Erickson, secretary and treasurer; who with Hilda Erickson are directors.

(Society continued.)

Mr. and Mrs. W. H. Cunningham are at the Kenyon.

Mrs. Heath of Park City is visiting Mrs. Kenyon.

Mrs. Lindsay Rogers has returned.

Mrs. C. D. Rooklidge entertained informally Thursday afternoon.

Mrs. F. L. Oswald was hostess at a large card party on Wednesday afternoon.

Miss Miller has returned to the city.

Goodwin's Weekly:—Gentlemen:—

In your last issue you mentioned the return of Mrs. Wm. McKellar. Kindly correct as there is nothing doing yet.

WM. MCKELLAR.

We gladly give space to the above note.

J. Will Gray & Brother are giving away a key ring with a number plate attached. After you have been favored with one, they take the number, with your name. Then if anyone finds your keys—maybe you get them back. It is new.

Scott-Strevells' novel way of advertising is causing a great deal of comment. It is the place where the folks stop—because they can't get by, with a constant jam of boxes and hardware that ought to be attended to through a warehouse or back door. The wagons in the street don't matter so much, because people can drive the other side. But it is a clever method, isn't it?

Have you seen the letterhead of the Greenwald Furniture Co.? It is the most artistic thing in that line seen for some time. It is in red and black, with unique type and striking line trimmings, and a seal that is perfect. A monogram in white and black on red is in the center with double borders of red and black, and small fleur de lis alternating with black lines. The Reporter Printing Co., did the work.
